NOTES

- This is the initial NPDES Inspection by Goldie & Associates at this site.

- Work was began on site some time ago, with construction of residences and bank, and grading of commercial areas.

- Site was left in fair condition when work was halted and appears to be fairly stable at this time.

- Graded commercial areas have mainly grown back in broom sage and other native plants.

- All residences are landscaped and stable.

- Some areas of existing silt fence need to be cleaned repaired or replaced. In particular, the east side of Homeplace Drive.

- Some erosion on south end of commercial site due to 36" culvert pipe. New outlet protection pad and stabilization needed.

- All major utilities appear to be installed on site.

- WICBs, GICBs, and drainage system to ponds installed.

- Site appears to be contained.
